Areas of need that were highlighted in more than one data source included physical activity/exercise, mental health, risky teen sexual behavior, nutrition, prescription compliance, transportation and access to care, senior care, and pulmonary health. After reviewing these data and considering the hospital's past CHNA plans and related initiatives, the Hospital CHNA Steering Committee prioritized four areas for the 2022 implementation plan: 1) maternal and child health, 2) mental health, 3) transportation, and 4) risky teen behaviors. Each prioritized need is addressed through collaboration, education or service.

The steering committee facilitated completion of a community survey, recruited key stakeholders for focus group discussions, provided information about the hospital's activities to address community health needs since the last CHNA was completed in 2019, and provided the healthcare resource listing at the end of this report.

The community survey that was administered aimed at assessing local health care access and needs of the people residing in the primary service area of Crisp Regional Hospital - Crisp County. and the health and healthcare needs of the residents.

Information from these primary data collection efforts was supplemented by secondary quantitative data on the community's profile, health care access, and utilization. These data were obtained from multiple publicly available sources including the US Census Bureau, the Area Resource File, Centers for Disease Control (CDC) disease and mortality data, Georgia population projections, County Health Rankings, and the Georgia Department of Health's Online Analytical Statistical Information System (OASIS). The most recently available data were obtained from all data sources at the time of analysis.

Findings from all the above-described primary and secondary data collection efforts informed the identification and prioritization of community health needs by the hospital steering committee, as well as provided suggested solutions to address these needs.

Facility 1, Crisp Regional Hospital Inc - Part V, Line 11

Information gathered from the community meeting, interview, discussions with the hospital leadership team, review of demographic and health status, and hospital utilization data were used to determine the priority health needs of the population. A variety of needs were identified that are not possible for the hospital to address by itself, but will be addressed through community education or in collaboration with others within the community.

Students have no control of their choices during the maze, and are presented consequences of choices related to substance abuse, unprotected sex, teen pregnancy/parenting, financial obligations, date violence, drinking/texting and driving, criminal activity, etc. The overall message is that making good choices will set students on a successful path to high school graduation.
